

### **Covid 19 Coordinator (15 hrs pw. Temporary )**

Our Place Wye CIC is delighted to announce that it has received funding from Kent Community Foundation and Wye with Hinxhill Parish Council to continue the coordination of current activities to respond to the Coronavirus and to develop the support within the community – promoting wellbeing and good mental health over the coming months.

The Covid-19 Community Coordinator would work in close liaison with the KCC Community Warden, Ashford Borough Council Covid 19 coordination unit, the Parish Council, the Church, the Surgery as well as many other community support groups.

We envisage this to entail 15 hours per week. £14 per hour. Temporary. 3 months in the first instance but with the likelihood of extension.

### **Communicator (8hrs pw.)**

The Our Place Wye Facebook Group has over 2000 members and on average during the pandemic has had about 20 posts a day. We are now looking for a paid moderator to continue the role of coordinating the Facebook moderation (alongside at least two other volunteer moderators); designing and publishing the newsletter which is distributed to all households (for the moment every month); liaising with Our Place Wye sponsors; providing IT support to the community's older citizens.

The person must use Facebook and, if not a resident of Wye, at least be very familiar with the village. For more information please consult <https://ourplacewye.org.uk/> £10 per hour. Temporary. 6 months in the first instance but with the likelihood of extension.

Both the roles are very part-time and very much in one's own time, and are exciting opportunities either for a self-employed person, or someone with ambition to become self-employed.

**Applicants are welcome to apply for either or both of these roles.** To apply email:- [ourplacewye@ourplacewye.org](mailto:ourplacewye@ourplacewye.org)

For more information please ring 01233-812866.

**Closing date: 12<sup>th</sup> June 2020** Selection will, most likely, be by online interview
